Epson **EB-S02H [240v]**

DATASHEET

Perfect for first-time users, this entry-level projector is straightforward to set up, allowing you to get started quickly and easily. With Epson's 3-in-1 USB display feature, one cable is all you need for picture, sound and page up/down control, while the HDMI connection offers sharp, clear pictures.

The Epson EB-S02H is compact and lightweight with a modern design*1. Epson's 3LCD projector engine delivers the natural, accurate colour that's important for films and images at home. With equally high White and Colour Light Output of 2,600 lumens, 16.77 million full colour reproduction, and 3000:1 contrast ratio, you can achieve a vivid, sharp image.

HDMI input means that you can connect a number of high definition devices for sharp, clear images. Using the PC-free function, you can present still photos directly from a USB stick without powering up separate devices.

With a short throw distance, this projector can produce large screen sizes from a short distance, with a 68-inch screen size from a distance of just 2m. A built-in 2W speaker ensures audio is delivered with clarity. Aligning the picture is particularly quick and easy with automatic vertical keystone correction.

The direct power on/off feature enables the projector to be deactivated without pressing the power button. When using as a portable projector, the instant-off function means no cool-down time is required, allowing you to pack up and go without delay.

KEY FEATURES

- 2,600 lumens White and Colour Light Output
- Enjoy high-definition content
- Automatic vertical keystone correction
- 3,000:1 contrast ratio

No.1 SINCE 2001 EPSON WORLD LEADER IN PROJECTORS

EPSON® EXCEED YOUR VISION
